## **New York State Corrections Lieutenant's Paybill FAQ's**

Below are answers to some frequently asked questions that have arisen from members on the security supervisors pay bill.

1. When the Security retroactive contracts are paid in Oct, all of the monies, current and retroactive, will be included in the same check with the exception of the retroactive adjustment of the Military Stipend which will be in the next paycheck.
2. Any earnings that are affected by the change in salary or any additional earnings are due a retroactive adjustment. Earnings codes that are calculated by the system will be automatically adjusted by the system; overtime, lost time, holiday, pre-shift, etc. This will be paid in the same paycheck as the salary increases. Any earnings that were submitted for payment as an adjustment or override code will have to be adjusted manually by the agency. The agency will be instructed and it is expected that the agency will submit these in the same paycheck. These earnings will be listed in the bulletin which should be available in a few weeks.
3. There will be no separate check for any part of the payment.
4. All employees will be processed at the same time including all inactive employees. Retired employee should submit a copy of their paycheck directly to ERS to expedite any needed changes to their pension.
