February 26th 2008

The Mechanicville PBA is seeking help for one of our members. Sgt. Peter Rocco's daughter Gabrielle who will be 2 years old on March 26th has been diagnosed with Neurocutaneous Melanosis. This is an extremely rare disease. Sgt. Rocco and his wife have been spending 7 days a week 24 hours a day at the Albany Medical Center with Gabrielle. Sgt. Rocco has been unable to work and Albany Med has just advised them that there is nothing more they can do for Gabrielle. She has had numerous surgeries on her head to relieve pressure due to water on the brain. They are currently treating her for pain with meds. Without these meds she suffers extreme pain. Sgt. Rocco will be out of work until he is able to return. No one should have to deal with this kind of tragedy. It is our hope that we can raise some funds to assist Sgt. Rocco and his family in there time of need. If you have any questions contact Chris Toleman (Union President) @ 664-7383.

Any and all donations can be sent to:
